Statement of Immunization for Entry into Child Care

According to the Day Nurseries Act, every operator shall ensure that before a child is admitted to a Licensed Child Care Program the child is immunized as required by the Medical Officer of Health. **The vaccines required are diphtheria, tetanus, polio, pertussis, haemophilus influenzae B, measles, mumps, and rubella.** These requirements may be removed if you object to immunization for medical, conscience or religious reasons. The necessary exemption form can be obtained from the Health Department.
