

A photograph of a young child with blonde hair, wearing a black tank top and an orange and white baseball cap, standing in a lush green forest. The child is looking to the left. The background is filled with trees and ferns.

Forest and Nature Summer Camp

Parent Handbook

Welcome to Forest and Nature Camp at the Oakville Parent-Child Centre! We are excited to welcome your camper to mornings of outdoor fun and exploration. At Forest and Nature Camp, children are at the centre of their learning, and we provide opportunities for them to explore their interests as we support their development.

With daily visits to the nearby nature trail, children will foster a deeper connection to and understanding of the natural world.

Adventure awaits!

About OPCC

Oakville Parent-Child Centre (OPCC) has been serving the Oakville community since 1980. As a not-for-profit centre, we offer a variety of programs and services including drop-ins, parenting support & workshops, Discovery Station Early Learning and resource libraries. OPCC is the EarlyON Child and Family Centre for Oakville. The mission of OPCC is to support, nurture and empower children and their families as they learn and grow together.

Program Overview

Forest and Nature Summer Camp at OPCC follows the guiding principles of Forest and Nature schools in Canada, as outlined by the [Child and Nature Alliance of Canada](#).

We'll gather as a camp community each morning in our classroom. We begin with a daily welcome, setting or reviewing the camp expectations as a group, and provoking curiosity about the natural world through sharing artifacts or stories. Then we walk to the Indian Ridge Trail, located just behind the centre. On the trail we will hike, play games, participate in exploration activities and use natural materials to create, learn and imagine. We return to our classroom to reflect on our morning together before departure.

Most of our morning will be spent outdoors, rain or shine, unless in instances of extreme weather (see weather policy below). Please come dressed for the weather and prepared to be outside, with sunscreen and bug spray already applied as needed.

Registration is by the week for any or all of the following weeks:

- Monday July 19 – Friday July 23
- Monday July 26 – Friday July 30
- Monday August 9 – Friday August 13
- Monday August 16 – Friday August 20

Time: 9:00 – 12:00 p.m.

Ages: 5-7 years old

Cost: \$200/week

Location: OPCC Satellite, 481 North Service Road West, Unit 25

Participant number: 8 campers

What to Bring

- Refillable Water Bottle, labelled with your child's name
- Nut-free snack
- Hat
- Close-toed outdoor shoes
- Change of clothes
- Masks (one to wear and an extra)

Educators

Program Lead: Angela Camozzi

Angela is an OCT-certified Primary/Junior teacher and a Forest and Nature School Practitioner (Forest School Canada). She has been working with children of all ages in outdoor settings for six years, including as the Camp Director at Royal Botanical Gardens' Discovery Camps, an Outdoor Guide with the District School Board of Niagara and a Mentor at Wild Path Forest School. She loves sharing her love for the outdoors and fostering a connection between children and nature.

Program Assistant: Victoria Quilitz

Victoria is an outdoor enthusiast who is starting her degree in Environmental Sciences this fall. She has her High Five training and experience supervising children in camp settings, as a party planner and as a swimming instructor. Victoria is looking forward to spending time outside getting to know our campers this summer!

Program Assistant: Anna Klygina

Anna is a long-time Girl Guide with experience facilitating STEM activities for younger children. She has worked at Ontario Parks and as an Environmental Engineering Co-op student, and will be starting her engineering degree in the fall. Anna is excited to share her passion for learning about the natural world with OPCC's camp participants.

Educators have First Aid and CPR training. Forest and Nature Summer Camp is also supported as needed by our RECE instructors and the administrative team at OPCC.

Policies and Procedures

Ratios: A minimum of two educators (Program Lead and a Program Assistant) will be facilitating the program for a maximum of eight camper participants.

Arrival and Departure: During this time, parents will be greeted at the entrance door by a staff member. Parents will not be allowed to enter the centre to help reduce exposure. Please line up at the indicated line, while maintaining physical distance of 2 metres from other families. When you cannot maintain a distance of 2 metres you must wear a mask. The screener will be wearing a mask and eye protection.

Each day upon arrival, a screening will be conducted on your child before they can enter the centre (see below). Please sign your child in on the sign-in sheet and indicate who will be picking up your child for departure time.

Departure from the program is of equal importance, so please be available to collect your child by their pick-up time. Please wait for your child at the departure door, and your child will be brought out to you. Please line up at the indicated line, while maintaining physical distance of 2 metres from others. In the interest of safety, we cannot allow a child to leave the centre with someone we do not know. Your child will only be released to those people designated on your registration form. We require that any new authorized pick-ups provide photo identification at departure time. In the event of extenuating circumstances, changes to the designated people must be submitted in writing from a parent or guardian to acamozzi@op-cc.ca.

Cancellation: A \$25.00 withdrawal fee is charged for withdrawal from this program. Fourteen days written notice is required for withdrawals. If 14 days written notice is not given, the program fee will be withheld. The 14-day period commences on the date written notice is received by OPCC. If the 14-day notice is received, the program fee will be *returned less a \$25.00 administration fee*. OPCC holds the right to terminate care immediately if any of the following situations occur: nonpayment of program fees, chronic late pick up and/or other extreme situations.

Weather: We will try to be outdoors for as much of the program as possible. Educators will continually monitor the weather and adjust the program accordingly. In the event of a thunderstorm, all participants will remain indoors until at least 30 minutes after the final lightning strike. We will not enter the forest during periods of high winds and will instead remain in the field space or classroom. Extreme heat will result in shorter and less active outdoor sessions with frequent shade and indoor breaks to cool off.

Snack: Please pack a nut-free morning snack for your child. If your child has an anaphylactic allergy to another food item, indicate this on your registration. We will request that families refrain from sending snacks containing that ingredient as well. Sharing snacks is not permitted. Handwashing takes place before and after snack. A distance of 2 metres between campers and educators is expected during snack.

Photographs: During the program, program staff will be taking photos of the children engaged in activities within the classroom. These photos will only be used for this program and may be shared through email to the camper's families only or posted for the families to see at pick up time. If a parent objects to their child being in a picture, please discuss this with the Program Lead.

Allergies and Medication: The centre will not administer any medication (prescription or non-prescription ie. Tylenol etc.), except in the event a child requires emergency medication in response to an allergic or life-threatening condition. If your child has an epinephrine auto injector or a rescue reliever inhaler, please contact the Program Lead to complete the required forms. This package must be completed before your child can start in the program. If there are any changes in a child's medical condition, it is the parent's responsibility to contact the Program Lead immediately. OPCC, at the discretion of the Executive Director, may refuse to undertake responsibility for administering medications or procedures, which staff does not have the expertise to administer.

Child Guidance: It is the purpose of OPCC and this program to provide a warm, caring environment in which each child feels safe and secure. Consistent limits for behaviour have been set, appropriate to the developmental level of the child and deal with health and safety, appropriate use of the equipment and the rights of each individual. We believe that the child responds best to positive direction, using encouraging language and tone of voice. The child learns respect for others by being given respect for himself/herself. Our child guidance policies reflect this philosophy. Methods used include:

- Redirection – guiding a child into an acceptable option when engaged in an unacceptable activity
- Natural and Logical Consequences
- Limit Setting – boundaries are developed by the program staff for the children as a group or for individual children, according to each situation
- Modeling
- Providing choices

- Anticipating conflict – planning and preparation of the environment
- Positive reinforcement and encouragement

If a difficult situation arises with the child, educators may discuss appropriate solutions in co-operation with the parent. Any disciplinary practice based on negative control technique is not allowed. The provision of Prohibited Practices forbids corporal punishment and other harmful disciplinary practices to protect the emotional and physical well-being of children. These practices are never permitted in our centre. If the child guidance strategies outlined above and collaboration with the parent/guardian are unsuccessful at ensuring the safety and well-being of every camper, the camper may be removed from the program.

Emergency Management: In the event of an emergency, we will evacuate the children to our safe place and once children are settled safely, parents/caregivers will be notified. Our safe place for our NSR-Satellite location is our NSR-Main site, at 461 North Service Rd W., #17.

Note: all directions given by emergency services personnel will be followed under all circumstances, including directions to evacuate to locations different than those listed above.

As soon as possible, OPCC must notify parents of the emergency situation and when the all-clear has been given. Where emergencies have occurred that did not require evacuation of the centre, OPCC must provide a notice of the incident to parents.

If normal operations do not resume the same day that an emergency situation has taken place, OPCC will provide parents with information as to when and how normal operations will resume as soon as this is determined.

If staff, parents and/or children have experienced distress from a crisis situation that occurred at OPCC, then the Executive Director/Manager will support and work with the appropriate agencies to assist in the recovery process to ensure help is given to those that require it.

Please contact the Manager if you have any questions at any time.

Incident/Accident Forms: OPCC is required to complete an Incident/Accident Form in the event of an injury. These forms are shared with the parents and must be signed by the parent at pick-up and given a copy. The original forms are then kept in the child’s file.

Serious Occurrence: A severe situation or injury warrants immediate attention and action. Any confirmed cases of COVID- 19 is considered a serious occurrence and will be reported as required to Halton Region Public Health. It is the responsibility of the educators to report immediately any occurrence, or suspected occurrence, to the Manager and/or the Executive Director. A report will be completed by the Manager/Executive Director, and the occurrence will be reported to the Board of Directors.

Concerns about the Suspected Abuse or Neglect of a child: Everyone, including members of the public and professionals who work closely with children, is required by law to report suspected cases of child abuse or neglect. If a parent/caregiver expresses concerns that a child is being abused or neglected, the parent will be advised to contact the [local Children’s Aid Society](#) (CAS) directly. Persons who become aware of such concerns are also responsible for reporting this information to CAS as per the “Duty to Report” requirement under the *Child and Family Services Act*.

COVID-19

Guidance: Policies and procedures relating to COVID-19 are taken from the Safety Guidelines for Day Camps document released by the Ontario Ministry of Health:

https://www.health.gov.on.ca/en/pro/programs/publichealth/coronavirus/docs/2019_summer_day_camps_guidance.pdf

Screening: As COVID-19 protocols and procedures continue to evolve, the most recent directives from Halton Region Public Health will apply and override any of the following protocols, guidelines and procedures.

In order to help reduce the risk of respiratory infections (including COVID-19), a health screening is a mandatory practice.

Parents are encouraged to complete the [COVID-19 school and child care screening](#) on behalf of their child prior to leaving for camp each morning to ensure their child is able to attend camp that day. Screening of each camper will also be conducted at sign-in by the educators prior to building entry.

Records are kept onsite for each camp participant for whom screening has been completed. Entry must be denied to any individual who screens positive for COVID-19 symptoms or exposures.

Masks: All camp participants in grades 1 and above are required to wear well-fitting masks (e.g., non-medical) while indoors. Use of masks is not required for outdoor camp activities if physical distancing of 2 metres can be maintained between camp participants and cohorts are maintained. Each camp participant should have access to multiple masks to facilitate changing, as needed (e.g., when soiled, damp, damaged or difficult to breathe through).

Illness at Camp: If a camp participant begins to show symptoms of COVID-19 while in camp, parents/guardians will be notified of the need for immediate pick-up. Campers will be isolated in a designated location until pickup. Symptomatic camp participants who are separated from others will be supervised by OPCC staff wearing personal protective equipment.

Any suspected or confirmed cases of COVID-19 within the day camp (staff or camp participants) must be reported by the day camp operator to the local public health unit to support case management and contact tracing. One or more confirmed COVID-19 cases in a camp participant or staff member requires collaboration with the local public health unit, who will determine the exposure risk and provide direction for all contacts and determine next steps based on their investigation and risk assessment. The local public health unit may give camp operators discretion, if necessary, to dismiss individuals or cohorts while awaiting the results of the public health investigation. The local medical officer of health or their designate will declare when the outbreak is over, inform the day camp operator and advise on next steps.

Cleaning: Current infection prevention and control practices are adhered to prevent the spread of COVID-19, including but not limited to:

- Ensuring that toys and equipment are made of material that can be cleaned and disinfected (e.g., avoid plush toys, playdough) or are single use and are disposed of at the end of the day (e.g., craft supplies) Items that are not easily cleaned and disinfected will be put away for 24 hours
- Minimizing the sharing and frequency of touching of objects, toys, equipment and surfaces, and other personal items

- Cleaning and disinfecting frequently touched surfaces twice daily at a minimum
- Extra cleaning and disinfecting of frequently touched surfaces, including washrooms (for example toilet fixtures, faucets), eating areas (for example tables, sinks, countertops), doorknobs, light switches, handles, desks, phones, keyboards, touch screens, push buttons, handrails, computers, photocopiers, sports equipment, toys, and water cooler knobs. We refer to PHO's factsheet on [Cleaning and Disinfecting for Public Settings](#)
- Checking expiry dates of cleaning and disinfecting products and following the manufacturer's instructions
- Promoting and performing frequent, proper hand hygiene by handwashing with soap and water or using an alcohol-based hand-sanitizer (at 60% or higher) including supervising or assisting camp participants.
- Hand washing using soap and water is recommended over alcohol-based hand sanitizer when hands are visibly soiled. We refer to PHO's [How to Wash Your Hands](#) fact sheet.

This handbook has been designed to provide you with detailed information regarding our Forest and Nature Camp program. If you have any questions or concerns, please give us a call at 905-849-6366.
